

# City of Miami

ALBERT A. DOMINGUEZ, P.E.  
Acting Director

JOE ARRIOLA  
City Manager

October 1, 2003

To Whom It May Concern:

**RE: SCAVENGER 2000 DEPOLLUTION BOAT**

This letter is to confirm that the City of Miami has entered into a service contract with Water Management Technologies to use their vessel, "The Scavenger 2000" depollution boat, to clean our waterways.

We have certified their product as Sole Source due to the unique technology integrated into the Scavenger 2000 depollution boat.

To date, we are highly satisfied with the services provided by Water Management Technologies. The use of the Scavenger 2000 depollution boat has greatly reduced the amount of trash floating down the Miami River and Biscayne Bay, and with its unique technology it has significantly improved our water quality through the use of the oxyplus depollution system. Moreover, the Scavenger 2000 has assisted the City in detecting environmental problems in our waterways.

Recently, we have extended our contract with Water Management Technologies for our fiscal year 2003-04 and we recommend the services of the Scavenger 2000 depollution boat to clean, rejuvenate and maintain the waters of the State.

Sincerely,

Albert A. Dominguez, P.E.  
Acting Director
